CAREER OBJECTIVE

Motivated Jr. Front End Developer skilled in React, JavaScript, HTML, CSS, Node.js, MongoDB, and Firebase. Eager to create user-centric web applications and contribute to a dynamic team. Committed to continuous learning and delivering efficient, responsive digital experiences. Seeking to leverage my skills in a forward-thinking company.

PROJECTS

Art Fizz — *An Art and Craft Store*

[Live Link](#) [Github](#)

- Art Fizz is a dynamic and responsive web application built using React.js, Tailwind CSS, and Vite, designed to create a seamless experience for art enthusiasts. Artists can showcase their work and portfolio, and art enthusiasts can view and purchase their work. The site is secured via Firebase authentication and also provides social login facilities.

VolunAid — *Volunteer Management Website*

[Live Link](#) [Github\(Client\)](#) [Github\(Server\)](#)

- Volun Aid provides a seamless and secure platform for connecting volunteers with opportunities. Users can easily post and apply for volunteer roles, manage their postings, and explore opportunities through customizable views. This dynamic and responsive web application is built with React.js, Tailwind CSS, Vite, Node.js, and MongoDB. Users are authenticated using Firebase which also provides social login facilities.

BlissAbode — *Real Estate Management Website*

[Live Link](#) [Github](#)

- Bliss Abode is a comprehensive platform for finding dream homes, offering secure multi-option authentication, curated property listings, favorites management, profile updates, and detailed property info for logged-in users. This dynamic and responsive web application is built with React.js, Tailwind CSS, and Vite. Users are authenticated using Firebase which also provides social login facilities.
